

This is a sample PDF file. There's not really too much too it.

It uses more than one font.

It has some non-ASCII characters in it.

Some, like ü and €, are in PDF doc encoding.
Also π because we need that. And I like ÷.
And how about ♪?

Some Hebrew would be good. תפוח אדמה

Let's add an image:

Let's add some color.

Here are some different kinds of tables.

Dining room	Multiplication	Water
Kitchen	Periodic	Vege

There's a second page because the example needs to have more than one page.
